

# MINI LUXA

Mini Luxa è la serie di apparecchi Luxa con larghezza 80 mm; così come Luxa, questo apparecchio si caratterizza per un alto grado di protezione all'acqua e alla polvere (IP65), quindi ha principale applicazione in esterni. Mini Luxa condivide con Mini Tuba anche gli accessori, tra cui il vetro trasparente per creare accenti di luce a fascio stretto, che si affiancano alla luce a fascio largo consentita dal vetro sabbiato.

Mini Luxa is a collection of lighting fittings 80 mm wide, for outdoor use that joins the Luxa collection, available in wall or ceiling version. It has got the same accessories as Luxa and Mini Tuba such as the transparent glass to obtain different luminous effects.

Le Mini Luxa est une série d'appiques conçues pour une utilisation extérieur qui vient compléter la collection Luxa, dont elle reprend les accessoires.

Son design linéaire et cubique permet une intégration optimale dans les milieux résidentiels ou commerciaux.

Mini Luxa è realizzata con struttura in estruso di alluminio, vetro diffusore sabbiato e viterie in acciaio inox.

Versioni per lampade alogene, ad incandescenza e a ioduri metallici.

E' la versione più piccola di Luxa (80 mm); versioni da parete e a plafone.

Inoltre sono disponibili versioni per luce diretta e diretta/indiretta.

Mini Luxa is made of extruded aluminum, sanded glass diffuser and stainless steel screws.

Halogen, incandescent and metal halide version bulbs.

It is available in small dimensions (80 mm): for wall installation and for ceiling use.

Versions for direct and direct/indirect light are also available.

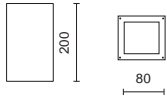

Structure en aluminium extrudé, diffuseur en verre opale et vis en acier inox.

Version pour lampe halogène, incandescence ou iodure métallique.

Disponible en versions aux dimensions minimal (80 mm): en applique murale et en plafonnier.

Existe en éclairage direct ou direct/indirect.

CE IP65 960°
