

Universal lighting track system

Track lighting provides a way of installing luminaires into a space that are flexible to future changes, allowing luminaires to be added, removed or repositioned quickly without the need for any cabling.

Track mounted luminaires include Strike S, Strike M and DuoFlux.

- Recessed or surface mount versions
- 3-Circuit or DALI 3-circuit versions
- Modular connections for extending/joining track
- Track can be cut to size during installation if required. Bending tool is required
- Surface track can be suspended using optional wire suspension kit - see finishing components
- Maximum system current 16A
- Black and silver finishes available to special order (minimum order quantity applies)

Notes: See installation guide for mounting point locations
